Spotlight of the month: Online safety

Learning online means spending more time online – staying safe online is super important!

For Your Child

✅ Think before posting: *Who will see this? Is it safe?*

✅ Keep accounts and profiles **private**

✅ Use **strong, unique passwords** and never share them

✅ Avoid posting **live locations** or personal check-ins

✅ Come to you if unsure - no judgment for mistakes

You can find lots of useful online safety info on the StudentHub!

For You as a Parent/Carer

✅ Review **your own privacy settings** regularly

✅ Ask before posting **photos or personal info** about your child

✅ Use **two-factor authentication** where possible

✅ Model safe online habits - children copy what they see
