GRAND THEFT AUTO VI (GTA 6)

Understanding the game and supporting your child to stay safe online.

We wanted to share a few things that might help.

What should parents and carers know?

- **Grand Theft Auto VI (GTA 6) has been released this week, and lots of young people are talking about it.**
- **The game is rated PEGI 18 because it contains strong violence, sexual content and drug use.**
- **It isn't designed for children, even if friends are playing it.**

PEGI 18 MEANS THIS GAME IS NOT SUITABLE FOR ANYONE UNDER THE AGE OF 18.

A few tips to help keep your child safe:

- **Check the parental controls on your child's console -** *You can use them to set age limits, block online chat and restrict spending.*
- **Watch out for scams -** *There are lots of "free download" and "free money" links going around at the moment.*
- **Keep an eye on screen time and sleep, especially on school nights.**
- **Chat with your child about what they're seeing online and who they're talking to.**

If your child mentions playing the game during their lessons, we may get in touch for a quick, friendly check-in.

Thank you for your support.
